A practical guide to the unusual

INSIDE THE PARK

Visitor Center

Displays, park information, gift shop and restrooms with hot showers.

Campground

Developed camping, picnic tables, fire pits and some electrical hookups.

Before you go

Verify campsite reservations, park fees and seasonal facility information.

NEARBY: SILVER CITY

Stay

Comfort Inn; Bear Creek Motel & Cabins. Or camp within the park.

Eat

Adobe Springs, The Jalisco Cafe and other downtown dining options.

Travel planning

The park is about 30 miles north of Deming or 33 miles south of Silver City via US 180.

Day-use and camping prices can change: verify on the official reservation website.

An eruption. Then 35 million years of patience.

34.9 MILLION YEARS AGO

A major volcanic eruption spread hot ash and pumice. The deposits hardened into a welded volcanic rock called the Kneeling Nun Tuff.

MAY 1952

City of Rocks State Park was established to preserve this exceptional geologic landscape.

HUMAN STORIES

People lived in this region for thousands of years; the historic Butterfield stagecoach route later passed nearby. The park is part of a longer human landscape.

GO FOR THE ROCKS. STAY FOR THE SCALE OF TIME.
